

Built for enterprises: Here’s why you should upgrade your RSA SecurID® Access licenses

Dear XXXXX,

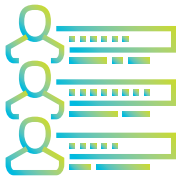

Reduce the Total Cost of Ownership of your RSA SecurID® Access deployment

Did you know that the RSA SecurID Enterprise and Premium license tiers have a number of advanced features and benefits designed to further improve authentication performance, productivity and security across growing and large organisations? These advanced tiers allow you to build upon the capability of the RSA SecurID Access Base licenses by providing the following benefits:

Enhance your overall security posture

Optimise
productivity and
reduce network
latency

Manage
thousands of users
quickly and easily

Improve DR
and resilience
capabilities

Quickly onboard
large teams
